ABOUT US

Over 10 Years of Experience

New Generation Flooring installs, repairs and refinishes floors across Massachusetts — hardwood, sanding and refinishing, vinyl plank, tile and floor repair.

- 10+ years
- Massachusetts
- Fast scheduling
- Free estimates

WHAT WE DO

Five services, one team.

Whatever the room needs: a new floor, one brought back to life, or a section put right.

- **Hardwood Installation**
- **Sanding & Refinishing**
- **Vinyl Plank**
- **Tile Installation**
- **Floor Repair**

SERVICE 01 OF 05

Hardwood Installation

Hardwood gives a room its character — the grain, the warmth, the way it catches daylight. We lay it plank by plank and finish it so the floor reads as one surface, wall to wall.

SERVICE 02 OF 05

Sanding & Refinishing

Sanding takes a tired hardwood floor back to fresh wood. Refinishing seals it again and brings back the colour and the shine — natural finish, or a custom stain if you want a different tone.

BEFORE YOU REPLACE

Restore or replace?

Most homeowners assume a scratched or dull floor means a full replacement. That is rarely the case.

- **Sanding**
  Removes years of wear, down to fresh wood.
- **Refinishing**
  Seals and protects, bringing back the colour.
- **The honest answer**
  It depends on how much wood is left.

SERVICE 03 OF 05

Vinyl Plank

Vinyl plank is worth a look for busy rooms and for anyone who wants a floor that asks for less upkeep. Water resistance varies by product, so we go through the options for your room first.

CHOOSING A FLOOR

Hardwood or vinyl plank?

Two good answers to two different questions. The right one depends on the room and the routine.

Hardwood

Timeless and durable. Best in living rooms and bedrooms.

Vinyl plank

Low-maintenance. A common choice for kitchens and basements.

Not sure which one fits your space? We will help you choose.

SERVICE 04 OF 05

Tile Installation

Kitchens, bathrooms and the rooms that take the most traffic and moisture. We install the tile you choose and set it level with the floors it meets.

ROOM BY ROOM

Which floor, where?

A quick guide from our own service list. Every home is different — the room decides.

Living & dining

Hardwood — warmth and character.

Bedrooms

Hardwood — quiet, timeless.

Kitchens

Tile or vinyl plank — easy to keep.

Bathrooms

Tile — built for moisture.

Basements

Vinyl plank — practical for busy rooms.

SERVICE 05 OF 05

Floor Repair

From a scratch to real damage: we look at the area, say what can be repaired, and do it. How closely the new finish matches depends on the floor you already have.

FLOOR REPAIR

When a repair is all you need.

A damaged plank or a squeaky board does not always mean a new floor. Each of these has a targeted repair.

- Loose planks
- Squeaky boards
- Water damage
- Worn sections

ALSO ON THE LIST

Stairs

Treads, risers and nosings are their own kind of work: every piece is cut to its step. Listed on our card alongside the five main services.

WHAT WE WORK WITH

Beyond the five services.

The digital card also lists kitchens, bathrooms, stairs and painting.

Entryways

Kitchens

Interior painting

Bedrooms

THE DETAIL

Details that make a difference.

The parts you notice last take the most care: the transitions between rooms, the edge against the baseboard, the point where one floor meets another.

HOW WE QUOTE

Free estimates. Honest pricing. No surprises.

Straightforward flooring service backed by more than ten years of work in Massachusetts homes. The estimate costs you nothing.

Red oak, full room

WHAT DRIVES THE WORK

Our mission.

To install, repair and refinish floors that Massachusetts homeowners are glad to walk on every day — with clear pricing and work we stand behind.

LOOKING AHEAD

Vision and values.

OUR VISION

To be the flooring company Massachusetts homeowners call first, and recommend afterwards.

Craftsmanship

Your floor deserves a craftsman's touch.

Clear pricing

Professional installation and clear pricing.

Clean, fast work

Clean, fast and high-quality work.

Experience

Over ten years in Massachusetts homes.

GETTING STARTED

Your project starts with a conversation.

Tell us the room, the floor you have now and the floor you have in mind — whichever way is easier for you.
